### **TEAMS WITH A TIE ROUND**

Double check your scores with the other team through out the night. The rounds won are the columns 1, 2, 3, & 4. The Total Points column is the 5th round. If you have a tie in a Round then add up all the games won in that round for each team. If it is still a tie ,then add the games won in columns 1-4. If it is still a tie then the team with the most points in the 5th round win that round. If that is a tie then you use who won game #1.

### **HANDICAPS**

Players with less that 2 weeks of playing in the current season will have an average of 10. The Handicap is figured by adding each player's average together per team. Then take the difference of the two teams and give the handicap to the team with the lowest average. The max handi cap is 12 points

### **RESCEDULED MATCHES**

Try to do the rescheduled matches the weeks we are off for the Worlds tournament in Vegas or when we are off for the regional tournament.
