

LEAGUE OPERATOR POSITION

Letter of Intent

My name is Becki Potter and I have been playing in the EVBCA pool league since 2008. I have learned that belonging to the EVBCA is belonging to a big family. In addition, this league is a player's league. Every sanctioned member has a right to vote on every issue.

I will be an excellent League Operator because I believe that I have what it takes to make our league successful. If elected I will do everything in my power to make the schedule fair for everyone. I want everyone to have fun and be competitive in this league. I will make sure information to the players are provided to them in a timely fashion. Since I became an EVBCA Representative five years ago, I have attended all the Western BCA meetings held in Vancouver Washington, except two. During COVID, we did live streaming and I attended all the meetings. All important matters were brought to our members and voted accordingly at those meetings. I am very interested in the rules and changes that go on for our league.

My experiences with pool leagues include being President for Women's Springfield Pool League and Treasurer for the Springfield Scotch Doubles League. I am a tournament official at the Western BCA tournaments for Regionals in Lincoln City and have been doing this position for five years. The duties include, but are not limited to, assisting at the front desk, walking around the pool room to make sure we are backing up the referees, and enforcing the rules of the pool room. I have also been a Captain for several eight, nine, and ten ball teams for BCA. I am also knowledgeable in computer programs and would have no problem putting information together for players.

I honestly try to be knowledgeable in the BCA rules and regulations. If I don't know the answer, I will find someone that does. If elected, I will do everything in my power to make sure that things are done in a timely manner and fair and competitive for everyone.

Thank you for considering me for the League Operator position.

Becki Potter
